

CLVC COVID policy for Spring/Summer 2022

For the spring/summer of 2022 CLVC has adopted the following policy in response to the ongoing COVID pandemic. This policy is for the CLVC gym only, keep in mind tournament and tournament venues may have a different policy for which we will be required to follow.

1. Beginning March 3, 2022 we will be a mask optional facility. We will also suspend temperature checks but do ask that players continue to sign in upon entering the gym.
2. We will continue all cleaning/sanitation protocol.
3. The following is our policy for any team that experiences a positive COVID case.
 - A player that is confirmed positive for COVID must quarantine for 5 days and be fever and symptom free before returning to the gym. A player that has a family member that is confirmed COVID positive must quarantine for 5 days and be fever and symptom free to return to the gym. Please notify the club director immediately of any confirmed COVID activity in your household.
 - Any teammate that was exposed to the COVID positive player within 36 hours of their initial symptoms will be notified by the club director. Each family can determine their level of risk based on the exposure, vaccination status, or personal belief system to determine when they are comfortable returning to play.
